Scottsburg Middle School Extra-Curricular Activity Guide

SMS students can participate in a variety of extra-curricular activities. Participation is determined by academic status, adherence to coach/sponsor expectations, and for athletics, an IHSA physical exam on file with the school nurse. Athletes must sign and follow the SMS Athletic Code. Athletes must attend classes on the day of an ECA event to participate in that event/practice. Many activities are open to all interested and eligible participants. Other activities require a tryout based on constraints of the activity.

Club and sport information will be posted in the Scoop Newsletter. Specific schedule information will be available via our new EventLink system (previously known as Pinwheel). We'll launch this in August!

Extra-Curricular Eligibility: Students with all passing grades on the most recent report card will have full participating access for any team or club in which they are a member. Students with one quarter F on the most recent report card may attend team/club activities but may not represent the school in games/contests/events until the next all-passing mid-term or report card. Students with two quarter F's on the most recent report card may not participate on teams or clubs until the next all-passing mid-term/report card.
